IT

Il codice a tre cifre individua il colore della stoffa applicata nell'articolo / componente.
Ogni partita di tessuto può presentare variazioni di tonalità rispetto sia al campionario sia ad elementi prodotti in tempi diversi.

Leggere differenze di colore tra un lotto di produzione e l'altro, devono essere considerate nella norma. I colori stampati sono indicativi e potrebbero essere sostituiti o modificati nel tempo a discrezione di LAS.

EN

The three-digit code identifies the colour of the fabric for each item / component.
Each fabric batch can show colour differences compared to the fabric samples and to the products manufactured at different times.

Slight colour differences from lot to lot must be considered within commercial tolerances. Please consider that the colours in these pages are printed, so they can't be considered as real. They can be changed or modified in the time by LAS.

FR

Le code à trois chiffres identifie la couleur du tissu appliqué dans l'article / composant.
Chaque morceau de tissu peut avoir des variations de ton en ce qui concerne à la fois l'échantillon et les éléments produits à des moments différents.

De légères différences de couleur entre un lot de production et un autre sont absolument normales. Les couleurs imprimées sont approximatives et peuvent être changées ou bien modifiées à jugement de LAS.
