FR

Le code à trois chiffres identifie la couleur du tissu appliqué dans l'article / composant. Chaque morceau de tissu peut avoir des variations de ton en ce qui concerne à la fois l'échantillon et les éléments produits à des moments différents.

De légères différences de couleur entre un lot de production et un autre sont absolument normales. Les couleurs imprimées sont approximatives et peuvent être changées ou bien modifiées à jugement de LAS.

ES

El código de tres dígitos identifica el color del tejido aplicado en el artículo / componente. Cada pieza de tela puede tener variaciones en el tono con respecto a la muestra y los elementos producidos en diferentes momentos.

La diferencia de color entre un lote de producción y otro debe considerarse en el estándar. Los colores impresos son indicativos y pueden ser reemplazados o modificados a lo largo del tiempo a discreción de LAS.
