Il codice a tre cifre individua il colore della stoffa applicata nell'articolo / componente. Ogni partita di tessuto può presentare variazioni di tonalità rispetto sia al campionario sia ad elementi prodotti in tempi diversi.

EN

The three-digit code identifies the colour of the fabric for each item / component. Each fabric batch can show colour differences compared to the fabric samples and to the products manufactured at different times.

Leggere differenze di colore tra un lotto di produzione e l'altro, devono essere considerate nella norma. I colori stampati sono indicativi e potrebbero essere sostituiti o modificati nel tempo a discrezione di LAS.

Slight colour differences from lot to lot must be considered within commercial tolerances. Please consider that the colours in these pages are printed, so they can't be considered as real. They can be changed or modified in the life time by LAS.
